Series 11, Integrated Tall Single DishDrawer Dishwasher

Series 11 | Integrated

Panel Ready

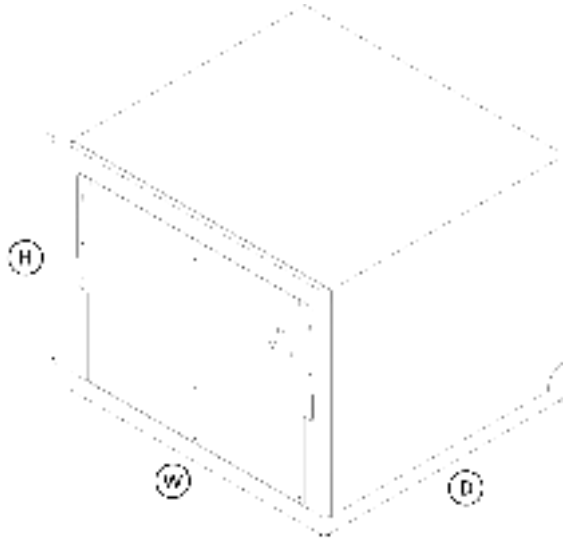

Place anywhere in your kitchen at bench height for easy loading and seamless integration. Features a premium stainless steel interior.

- Eight wash cycles from Heavy to Light, including Auto, 60min and Glassware
- Fits full-size dinner plates up to 12 1/4 inches, with flexible racking for large cookware
- With a soft-close drawer, and knock to pause convenience
- Wi-Fi capability and a SmartHQ™ app for remote control and notifications

DIMENSIONS

Height	17 7/8 "
Width	23 9/16 "
Depth	21 3/4 "

FEATURES & BENEFITS

Seamless Integration

With the flexibility of ergonomic placement and function, single DishDrawer™ Dishwashers can be distributed throughout the kitchen to support patterns of use. The touch-sensitive control panel is located inside this Integrated model, leaving an uninterrupted exterior that blends seamlessly with surrounding cabinetry.

Ease Of Use

DishDrawer™ Dishwashers are beautiful to use with soft-close drawers, and can be conveniently positioned at bench height for ease of loading and minimal bending. Flexible racking includes height-adjustable cup racks and wine glass supports.

Flexible Wash Options

Eight wash programs including Auto, 60min and Glassware, while modifiers such as Sanitize, Dry+ and Quiet provide added wash flexibility. The Quiet wash modifier reduces the noise on some cycles while maintaining performance – perfect for late night washing.

Design Quality

Every detail has been carefully crafted using quality materials, from the easy-to-clean stainless steel interior to the spray arm sensor that detects jams for increased wash confidence.

Knock To Pause

For ease-of-use, these DishDrawer™ Dishwashers have a knock to pause function. A knock on the front panel will pause the dishwasher, which can be restarted by using the start button.

Quiet Performer

Running at a low decibel rating of 43dBA, these DishDrawer™ Dishwashers do their job without making a fuss. The combination of intelligent technology and simple mechanics means greater reliability and excellent wash performance.

Efficient Performance

Our Energy Star rated DishDrawer™ Dishwashers use the energy they need without compromising on wash performance.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
