JGC7530B

JENN-AIR® 30", 5-BURNER GAS COOKTOP

SIGNATURE FEATURES

18,000 BTU PowerBurner provides the robust heat necessary for high-powered cooking techniques, whether quickly boiling water, pan searing steaks or stir-frying vegetables. The brass PowerBurner is located on the center front burner.

Simmer Burner provides continuous, low heat for foods and sauces that require exacting temperature control. For delicate tasks like melting chocolate or butter, the Simmer Burner prevents scorching and reduces to as low as 800 BTUs. This 6,000 BTU Burner is located on the right, rear of the cooktop.

Single Point Electronic Ignition and Flame-Sensing™ Re-ignition ensures a continuous flame that reignites automatically when a burner's flame is blown out by a sudden draft. Allows meal preparation to continue uninterrupted and prevents delays in timed recipes.

Low Profile Design allows a minimal look, nearly flush with the countertop. This provides an integrated transition to the cooktop with an exceedingly low profile of only 3 millimeters – less than the thickness of two pennies.

SPECIFICATIONS

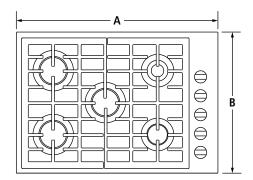

- 5 Sealed Burners
- 18,000 BTU PowerBurner
- 15,000 BTU Burner
- 12,000 BTU Burner
- 9,000 BTU Burner
- 6,000 BTU Simmer Burner
- Infinite Burner Control Settings
- Brass Burners
- Single Point Electronic Ignition and Flame-Sensing™ Re-ignition
- 3-Piece, Continuous, Heavy-Duty, Cast Iron Grates
- One-Piece Cooktop
- Euro-Style or Pro-Style® Barrel Knobs
- Stainless Steel Surface
- White LED Burner Indicator
- Low-Profile Design
- Built-in Oven Compatible
- Convertible to LP

STYLE OPTIONS

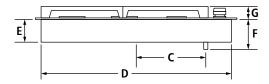

Euro-Style Stainless with Stainless Knobs – JGC7530BS Pro-Style® Stainless with Pro-Style® Knobs – JGC7530BP
