30" Series 7 Contemporary Self-Cleaning Oven

Series 7 | Contemporary

Brushed Silver Glass

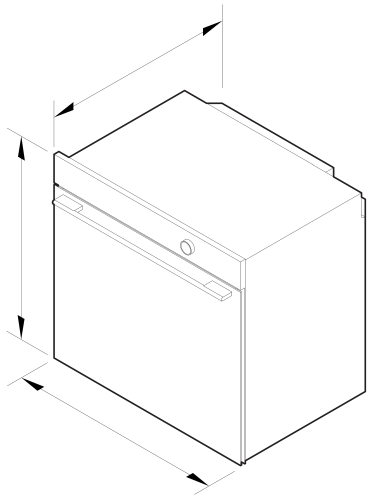

This timeless and expressive oven with self-cleaning features a 5” touchscreen and method-led cooking for perfect results.

- Create perfect results with precise cooking methods, including Air Fry and Slow Cook, via the 5” touchscreen
- Pyrolytic self-cleaning breaks down food residue for simple maintenance
- Generous 4.9 cu ft total capacity, with twin vertical fans for even cooking across multiple shelves
- SmartHQ™ app offers the ability to preheat remotely or check cooking progress

DIMENSIONS

Height	28 11/16 "
Width	29 7/8 "
Depth	23 7/16 "

FEATURES & BENEFITS

EXCEPTIONAL PERFORMANCE

Experience unmatched performance and effortless convenience with precise cooking methods and pyrolytic self-cleaning. Guided by a deep understanding of the science of cooking, we’ve mastered the balance of heat, humidity and airflow to deliver precise cooking methods from Air Fry to Slow Cook, which bring out the full potential of every ingredient. With Twin Vertical Fans, and ActiveVent™ technology to manage humidity levels, you can expect consistently perfect results on every shelf.

MASTERY OF TEMPERATURE

Whether you want to Proof Bread, Roast Chicken or Bake Pastry, each of our precise cooking methods has been carefully calibrated with the optimal combination of heat, temperature, and humidity to help preserve texture, retain nutrients, and enhance flavour. With additional guidance for multi-shelf cooking and the Temperature Sensor, it brings true mastery of temperature to every dish.

CONSIDERED DESIGN

Every detail of our Contemporary style appliances has been meticulously designed. With a brushed silver finish, round bar handle, and intuitive 5” touchscreen, every element aligns beautifully. Create your ultimate kitchen solution with our range of ovens and companion products, creating a seamless and cohesive look when installed side by side or stacked — with perimeter gaps as small as 1/16". The perfect pairing of style and precision for your kitchen.

GENEROUS CAPACITY

An expansive 4.9 cu ft capacity provides plenty of room for all your dishes, whether it’s everyday meals, family feasts, or entertaining a crowd.

EFFORTLESS CLEANING

For effortless wipe-downs, pyrolytic self-cleaning uses very high temperatures to turn residues into fine ash, while the removable crumb tray sits discreetly under the door hinge to catch drips or crumbs and is easily removed for cleaning. The redesigned door showcases remarkable engineering — with smooth, full-width glass that makes deep cleaning simple and satisfying.

MULTI-FUNCTIONAL ACCESSORIES

Thoughtfully designed accessories expand your cooking possibilities. The Multi-Functional Air Fry Tray adapts seamlessly for Air Frying, Baking, or Broiling, its perforated design ensuring even airflow. Multi-use by design, it reduces storage needs and helps to support a sustainable kitchen, while the Wired Temperature Sensor delivers real-time monitoring and useful alerts.

CONNECT AND CONTROL

Connected cooking brings intelligence and ease to your kitchen. With WiFi and the SmartHQ™ app, you can monitor and control your oven remotely, receive real time notifications, and access helpful guidance. Software updates are delivered through the app to keep your appliance current with the latest features and functionality. Voice control with Google Assistant offers hands free convenience, while our temperature sensors support precise, confident cooking.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
