DW24T3IPT/26

DISHWASHER 24" TALL TUB PANEL READY FULL TOUCH USER INTERFACE

Energy Star rated panel-ready tall tub dishwasher with multi-level interior configuration able to fit up to 16 place settings.

Super-quiet performance as low as 39 dB(A) with optional Stealth mode.

Flexible and foldable third rack with dedicated spray nozzle, ideal for flatware, silverware and smaller items.

Convenient height-adjustable middle rack with basket fully loaded on extra-smooth, full-extension ball-bearing telescopic rails.

Customizable and effective washing and drying with 8 washing cycles, 7 washing options and PowerDry Plus system.

NSF-certified Sanitize option elevates washing temperature to 155°F for perfect and sanitized cleaning, eliminating 99.9% of all common household bacteria.

Dual brushless pump system with electrical diverter, turbidity sensor and triple-stage metal filter ensures maximized cleaning results.

Additional high-pressure water circuit on the upper basket serving dedicated spray nozzles for deep cleaning tall glasses and bottles.

LED interior lighting to facilitate loading and unloading.

Enhance your kitchen design with the Professional Carbonio door panel (SP24DTC + HK24PRODWT), or opt for the Master Bianco Matt door panel (SP24DTB + HK24MASDWXG) to achieve a cohesive, elevated aesthetic across all your appliances.

2 years parts & labor warranty for peace of mind.

PRODUCT DIMENSIONS

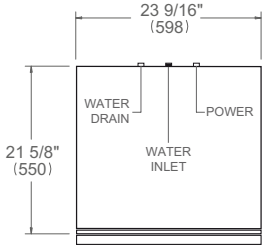

SIDE VIEW

FRONT VIEW

TOP VIEW

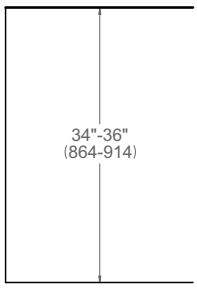

Drain hose and toe kick are provided with the unit

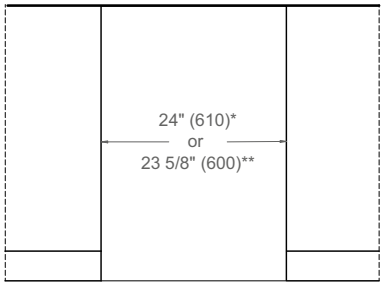

* including a 3/4" (20) thick custom panel

CUTOUT DIMENSIONS

SIDE VIEW

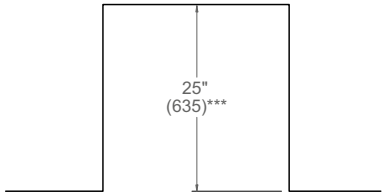

FRONT VIEW

* with vertical side trims installed
** without vertical side trims

TOP VIEW

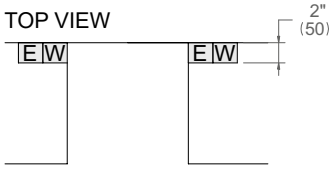

*** Cabinet depth shown includes kitchen cabinet front panel. For a flush installation, a minimum inset depth of 22 1/2" (570) is required with a custom door panel thickness of 3/4" (20).

ELECTRICAL & WATER CONNECTION

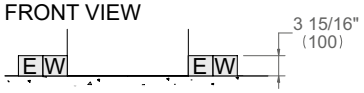

E — A properly-grounded, horizontally-mounted electrical receptacle should be installed according to this drawing.

W — To connect the water mains to the water inlet valve thread, use a 3/8" water inlet hose and 3/4" metal adapter with a length of 60" (1524) (not supplied).

TOP VIEW

FRONT VIEW

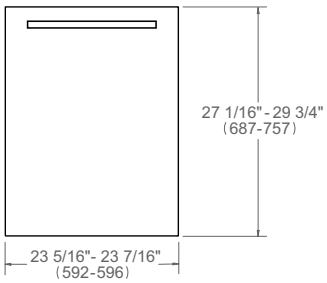

Connections placement must be located on either side of the cutout.

INSTALLATION REQUIREMENTS

Follow local codes & ordinances for drain requirements. Install a waste line with an air gap (not supplied) or, alternatively, at least 30" (762) high drain loop to prevent backflow. Drain hose is 74" (1880) long. Drain hose must be connected at minimum 20" (508) from the floor. Ensure that the designated cabinet space is delimited by side panels or a 3" (76) return on each side, with a minimum thickness of 5/8" (16) for proper support.

CUSTOM PANEL

Door tension can be adjusted to accommodate custom panel weights from 7 lb (3 kg) to 18 lb (8 kg). For custom panels from 18 lbs (8 kg) to 22 lbs (10 kg), it is necessary to purchase the optional Heavy Duty Springs kit HS24DW. Suggested panel thickness is 3/4" (20).

Dimensions in parentheses are millimeters unless otherwise specified.

For complete installation details refer to the installation manual at us.bertazzoni.com or ca.bertazzoni.com
