PE304TX

30" BUILT-IN INDUCTION COOKTOP WITH STAINLESS STEEL FRAME
TFT INTERFACE WITH AUTOMATED SENSOR COOKING

High-end TFT Display
The 7” multi-color TFT display offers an advanced and intuitive cooking interface, making it easy to adjust power levels and monitor heat in real time. All main functions are directly accessible on the interface and, thanks to the Automatic Pot Recognition, just a single touch is required to complete all daily actions.

Exclusive Metal Frames
Exclusive optional metal frames in Stainless Steel, Carbonio, and Gold enhance the cooktop’s distinctive look, adding a layer of refinement that seamlessly blends with any kitchen decor. These finishes are meticulously crafted to provide both durability and aesthetic appeal, ensuring a timeless and premium appearance.

Bertazzoni Assistant - Smart Cooking Precision
The Bertazzoni Assistant is an intelligent cooking system designed to ensure optimal results by directly controlling the temperature inside cookware. Thanks to advanced sensors placed at the center of each cooking zone, it continuously monitors and adjusts the heat to maintain precision and consistency. This technology allows users to cook with confidence, ensuring perfect outcomes with minimal effort. The 5 programs are: Temperature Holding, Water Boiling, Steaming, Pasta Cooking and Frying.

The Most Advanced Induction Technology Ever
With advanced Half-Bridge inductors, TFT cooktops deliver precise power control for ultra-fast heating and perfect simmering. Up to 3.7kW boost ensures rapid boiling, while ultra-low duty cycle keeps low temperatures stable, preserving delicate flavors.
