FEATURES & BENEFITS

Pairs perfectly with the UVC9300 insert** to create a ready-to-finish custom hood installation.

Eliminates the need to build a square and strong cabinet. Simply install to the wall and finish to your preferred appearance.
No critical cabinetmaking skills required.

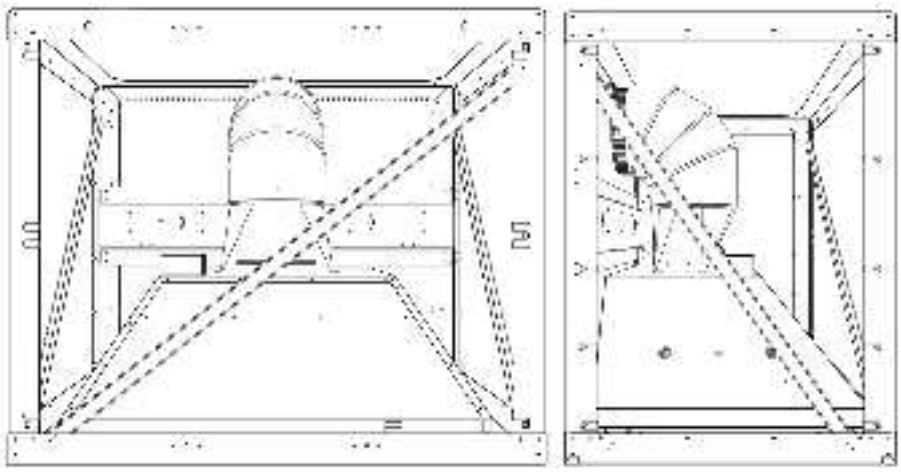

Includes paintable wood panels pre-cut and pre-drilled and ready for installation. Top panel, front panel and side panels are all included.

Supports rear venting and top venting to meet specific installation needs.

Add your own materials to finish the appearance to your personal style.***

Install over either 30" or 36" range/cooktop

*When 3/4″ thick panels installed.
**UVC9300 insert must be ordered separately.
*** Requires general woodworking skills to finish to final appearance.

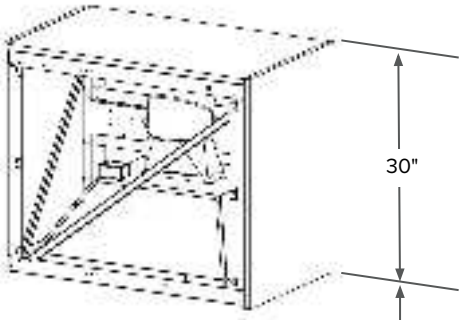

Shown with UVC9300 insert installed and vented out the back
