

HOTPOINT®

October 2005

Complete your kitchen with the look of stainless.

HOTPOINT®

In Silver Metallic

Hotpoint in silver metallic. Today's alternative to stainless.

Offer a striking contemporary look

- Unique silver metallic finish complements any kitchen décor, countertop and cabinetry regardless of their color or finish
- Full-line of appliances offer a distinct design advantage

Take advantage of this durable design option

- Silver metallic finish resists fingerprints and is easy to wipe clean
- Refrigerators hold magnets for everyday convenience

Enhance the look of your kitchen with the look of stainless steel

- Stainless steel is a growing trend and Hotpoint is leading the way
- Increases perceived value of your property
- Coordinates with other appliance colors

Side-by-Side Refrigerators

Hotpoint® side-by-side refrigerators combine storage convenience with state-of-the-art technology. Outside, an extra-tall LightTouch! dispenser delivers filtered water and ice at the slightest touch.

LightTouch! dispenser

Taller LightTouch! dispenser fills sport bottles, pitchers, even blenders! Delivers chilled, filtered water and ice.

Adjustable gallon door bins

Door bins hold gallon containers and six-packs in the fresh food compartment.

FrostGuard™ technology

Defrosts only as needed, reducing freezer burn.

Upfront electronic dial temperature controls

Conveniently located controls are easy to set and see.

Sealed pans

Provide the perfect storage environment for fresh foods.

HSM25GFR

HSM25GFR

- Silver metallic exterior
- 25.0 cubic foot capacity

Top-Freezer Refrigerators

Hotpoint® top-freezer refrigerators are designed for total convenience and flexibility. Adjustable shelves provide easy access to contents, while upfront controls allow easy adjustment of temperatures.

Upfront illuminated temperature controls
Conveniently located controls are easy to set and see.

Fixed gallon door storage
Provides storage for gallon containers, six-packs and other large fresh food items.

Clear crispers
Provide easy storage for vegetables and fruits.

Snack pan
Excellent for rewrapped meats, cheese, hors d'oeuvres, pudding and other snacks.

Dairy compartment
Clear, lift-open cover provides easy access to butter, cheese and other dairy products.

Spillproof freezer floor
Seamless design makes freezer cleanup simple.

HTS22GBP

*Color(s) available: WW = White on white.
 Add 9/16" for water hook-up. Hook-up fits in 5/8" back air clearance when calculating installation depth.
 If installed against a wall, allow clearance of 12-1/8" on 25 cu. ft. models on freezer side to remove bin.
 To remove fresh food pans, remove door bins.
 Clearances required to remove fresh food full-size pan without disassembling: 15" on 25 cu. ft.
 Allow additional space for any necessary leveling adjustments.

Spacemaker Refrigerator

Note: Right-hand Refrigerator Door: As you face the front of the refrigerator, the handle is on your left and the hinges are on your right.

Left-hand Refrigerator Door: As you face the front of the refrigerator, the handle is on your right and the hinges are on your left.

*Compartment for short-term storage of frozen food. The frozen food compartment of this refrigerator will make ice, and pre-frozen foods can be stored for about **two weeks**. It will not effectively freeze fresh foods or provide long-term storage for meats, poultry, or fish.

**Do not substitute TNK6 for this kit. Not compatible.

†If installed against a wall, allow 1 -1/4" on hinge side to allow for proper door opening.

Smooth Top Ranges

Hotpoint® free-standing smooth top ranges provide quick cooking response. The fast, ribbon heating elements are positioned beneath the smooth cooktop and direct heat straight up to the pan. This sophisticated cooking method provides even heat for uniform cooking. Electronic oven controls provide an easy, two-step self-clean oven operation.

5.0 cu. ft. capacity

Hotpoint's smooth top ranges have an oven that is big enough to handle just about any cooking need.

Two-step self-clean

Simply latch the oven door and push the "Self-Clean" button. The oven does the rest.

Ribbon heating elements

Unlike conventional elements, the heat comes from brightly glowing ribbon elements positioned beneath the smooth fingerprint- and scratch-resistant, patterned ceramic-glass surface.

Touchpad controls

Set your oven to bake, broil, or self-clean quickly and easily—with the touch of a button.

Frameless glass oven door

The full-width frameless door is easy to clean and offers contemporary styling.

Warming drawer

Provides variable temperature control for keeping foods warm.

RB800SJ

Silver metallic exterior

Unique finish complements any kitchen décor, countertop and cabinetry regardless of their color or finish.

Electronic oven controls

Easy-to-use electronic oven controls provide:

- Simple touchpad oven operation
- Auto Self-Clean
- Self-clean cycling light
- Preheated oven light with audible preheat signal
- Auto oven shut-off
- Electronic clock and timer
- Automatic oven timer
- Oven "ON" light
- Delay Bake option.

Hotpoint free-standing coil ranges are perfect solutions for today's busy schedules! Self-clean ovens save you time and effort. On ranges with one-piece, upswept cooktops, a simple wipe-up does the job. White on white models are designed to complement the elegance and efficiency of today's kitchens.

5.0 cu. ft. capacity
Hotpoint's coil ranges have an oven that is big enough to handle just about any cooking possibility.

One-piece upswept cooktop
No cracks or crevices to trap dirt! The porcelain enamel-on-steel surface wipes clean easily.

Lift-up cooktop
Cooktop lifts up to allow easy clean-up of hard-to-reach spots underneath.

Plug-in surface elements
Unplug to remove drip bowls and clean in the dishwasher. Recessed areas are designed to catch spillovers and make cleaning simple.

Two-step self-clean
Simply latch the oven door and push the "Self-Clean" button. The oven does the rest.

Frameless glass oven door
The full-width frameless door is easy to clean and offers contemporary styling.

Calrod® surface elements
The design of the removable Calrod surface elements assures fast, clean cooking and even heat distribution.

Removable full-width storage drawer
Conveniently store cooking utensils close at hand. Drawer removes easily for cleaning underneath.

Electronic oven controls
Easy-to-use electronic oven controls provide:

- Simple touchpad oven operation
- Auto Self-Clean
- Self-clean cycling light
- Preheated oven light with audible preheat signal
- Auto oven shut-off
- Electronic clock and timer
- Automatic oven timer
- Oven "ON" light
- Delay Bake option.

*Dimensions from wall to front of closed oven door.

Note: 30" Electric Ranges conform to U.L. requirements for 0" spacing from walls below countertops. Allow 1-1/2" spacing from the side of the range to adjacent vertical walls above the cooktop surface.

Installation information: Before installing, consult installation instructions packed with product for current dimensional data.

FULL ONE-YEAR WARRANTY One year from date of original purchase, we will provide free of charge, parts and service labor in your home to repair or replace any part of the appliance that fails because of a manufacturing defect. Complete details from your dealer.

All Hotpoint ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.

See page 75 for warranty information.

All Hotpoint ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.

Gas Ranges

Hotpoint Capacity Plus™ gas ranges feature an extra-large oven capacity and are available in self-clean or standard-clean ovens. Select models feature sealed burners that provide both simmer capability and high output, an extra-large broiler pan and grid, six embossed rack positions and porcelain-enamelled upswept cooktop.

Sealed gas burners

Special burner design helps contain spills and boiling-over liquids from dripping beneath cooktop for easy clean-up.

Simmer 600 burner

Offers true simmer capability with a low (600 BTU) setting. Provides low, even heat distribution for delicate foods and sauces.

EasySet clock and oven timer

Easy-to-use electronic touch pad controls and delayed baking function make cooking simple.

Performance Plus burner

Provides high output (12,000 BTU) for faster boiling and to heat foods quickly.

Lift-up cooktop with easy-clean subtop

Standard burner models have a cooktop that lifts up for easy access to porcelain-enamelled subtop. Twin rod supports allow cooktop to lift and lock into place. Free from pipes or wires that interfere with clean-up.

Capacity Plus gas ranges

Extra-large capacity with a sixth embossed rack position increases cooking flexibility.

One-piece upswept cooktop

Free from cracks or crevices that trap dirt. The porcelain enamel-on-steel surface wipes clean easily.

RGB540SEH

Silver metallic exterior

Unique finish complements any kitchen décor, countertop and cabinetry regardless of their color or finish.

Not all features available on all models.

CAPACITY PLUS™ 30" Free-Standing Gas Ranges

These models feature more usable oven capacity than any other leading manufacturers' brand; a sixth embossed rack position; extra-large broiler pan; porcelain-enameled upswept cooktop; interior oven light and electronic pilotless ignition.

RGB540SEH

- Silver metallic exterior
- Extra-large, standard-clean oven
- Sealed cooktop burners
- Simmer 600 burner
- Performance Plus burner
- All purpose burners

Undercabinet Mounting Kit Part No. JXA019K For Spacemaker II and Microwave Oven Models JEM25, REM25 and JE740 (Available at additional cost)

Not to be used over a thermal oven.

Undercabinet Installation

Install Spacemaker II and microwave ovens in just a few easy steps with the mounting template, which provides all the necessary measurements. These microwave ovens can be installed on practically any wood or metal cabinets. Installation may vary depending on cabinets.

Note: 120V, 60-cycle, grounded power receptacle location optional on back within cabinet opening.

Dishwashers

Hotpoint dishwashers offer quality, capacity and quiet performance at an exceptional value

Hotpoint dishwashers deliver outstanding performance...quietly. Wash performance, quiet operation and dependability make Hotpoint a great choice.

Power Wash II system
Provides three-level wash action with powerful water jets to effectively remove food soils.

HDA3740GSA

- Silver metallic exterior
- Trimless door design
- Power Wash II system
- Hot PreWash option
- QuietDesign™ sound package
- TouchTap™ controls
- 1-5-hour Delay Start
- Deluxe Plus upper rack
- Deluxe lower rack

ENERGY STAR®-qualified
Hotpoint dishwashers* are certified to exceed ENERGY STAR guidelines for energy efficiency.
*Excluding HDA1000G

Hot PreWash option
Preheats water before the main wash cycle for excellent performance time after time.

Self-cleaning filter
Effectively traps and removes food soils. No hand-cleaning of any filter by consumer is necessary.

QuietPower™ motor
Runs quietly and efficiently to keep the kitchen peaceful.

Not all features available on all models. Complete features and specifications on page 50.

Figure 1

Dishwasher Rough-In Information

Note: Dishwasher must not be installed more than ten feet from sink for proper drainage. All plumbing and electrical work must be in accordance with local codes.

Most of the installation work should be done before the dishwasher is moved into place. First, select a location as close to the sink as possible for ready access to water and drain lines. For proper operation and appearance of the dishwasher, the cabinet opening should be square and have dimensions as shown in Figure 1. If the dishwasher is to be installed in a corner, there must be sufficient clearance to open the door as shown in Figure 2. A minimum clearance of 2" is recommended.

Rough-in the water, electrical, and drain lines before proceeding with installation. The lines should run straight to their connections on the dishwasher.

Note: Make sure that the lines do not cross in front of the dishwasher motor or its legs.

Figure 2

Spacemaker Built-In Dimensions GSM1800J (in inches)

*Width adjustable from 17-5/8" to 18".
 **Meets ADA countertop height requirement of 34".

Electrical rating

Voltage AC..... 120
 Hertz 60
 Total connected load amperage..... 9.0
 Calrod heater watts 550

For use on adequately wired 120V, 15-amp circuit having 2-wire service with a separate ground wire. This appliance must be grounded for safe operation.

Accessories	
Requires kit for 1/4" panel capability with trim	GPF325W/C/B

*Colors available: WW = White on white, CC = Bisque on bisque, BB = Black on black.

Note: Under-the-sink dishwashers can be installed under GE cooktop models JP201C and JP202D. Refer to cooktop installation instructions.

Plumbing/Electrical Rough-In (in inches)

Plumbing: Hot Water Only: Use 3/8" O.D. copper tubing or 1/2" O.D. plastic tubing min. inlet line. Water valve has 3/8" internal threads. Hand cut-off valve is recommended.

Electrical: Fuse circuit with 15 amp or 20 amp standard fuse or circuit breaker. Total amp load is 6.2. Dishwasher operates on 120V, 60 Hz power. Two-wire cable (14 Ga. Min.) with ground must be installed.

Note: All rough-in, both plumbing and electrical, must be completed before the dishwasher is installed. All plumbing and electrical work must be in accordance with local codes.

Specifications: Inlet Water Temperature Recommended: Minimum 120°F at dishwasher. Inlet Water Pressure Required: 15 to 120 lbs./sq. in.

Cabinet Cutout for Sink (in inches)

Cabinet cutouts for offset single and double bowl sinks. Dishwasher not provided with complete enclosure. Enclosures for sides, top, bottom, and back must be provided by installer at time of installation.

Cabinet Rough-In (in inches)

Either single- or double-bowl sink may be used, centered or offset, as shown in the front illustration above. The 20-1/2" max. dimension from wall to front of sink bowl must be accurate if dishwasher is to fit properly under sink. Water lines to sink faucet and drain from sink can be run through area "A." HOT WATER line to dishwasher is installed in area "B." Garbage disposer, water lines to faucet, trap, waste air gap and water cut-off valve are installed in 12" wide cabinet shown in area "C." Sink opening for garbage disposer must be dimensioned as shown in front view, area "C" above (7-1/2"). This will provide clearance for disposer and plumbing in cabinet "C" when using double bowl sink. If the sink bowl is more than 20-1/2" max. specified distance from the wall, or if the base cabinet is less than the 24" min. depth from the wall, a gap between the tub front flange and the front of the base cabinet may result.

Stainless Steel Sinks Single- and Double-Bowl Models Dimensions (in inches)

Model Number	Overall Size			Inside Each Compartment		
	L	W	D	L	W	D
GPF95 (Single Bowl, R)*	25	21-1/4	21	15-3/4	5-3/8	5-3/8
GPF96 (Single Bowl, L)*	25	21-1/4	21	15-3/4	5-3/8	5-3/8
GPF97 (Double Bowl)	33	21-1/4	14	15-3/4	5-3/8	5-3/8

Model Number	Cutout In Countertop 1-1/2" Radius Corners		No. Of 1-1/2" Dia. Faucet Holes	Ship. Wt. Lbs.
	L	W		
GPF95 (Single Bowl, R)*	24-3/8	20-5/8	3 or 4**	10
GPF96 (Single Bowl, L)*	24-3/8	20-5/8	3 or 4**	10
GPF97 (Double Bowl)	32-3/8	20-5/8	3 or 4**	12-1/2

Note: Drain opening size is 3-1/2". Above models are fully sound deadened.

*Suffix "L" or "R" means drain outlet is located in upper left or right corner of sink compartment.

**All have four holes, but one hole has a removable plug.

Rough-In for Installation with Disposer (in inches)

A close-fitting elbow or special shallow sink strainer is necessary to provide clearance between sink drain and dishwasher. Dishwasher furnished with 1/2" I.D. drain hose, 78" long. If using copper tubing, 2" length of 1/2" I.D. rubber hose must be provided to connect copper tubing to pump outlet. Disposer should have 7/8" I.D. dishwasher drain connector.

Rear View Plumbing Arrangement (in inches)

WWSR1070D

VBXR1090D

WWSR4150D

Extra Rinse option

Ideal for those with sensitive skin, this option removes excess detergent residue from fabric fibers.

Automatic presoak cycle

This option soaks heavily soiled clothes for 15 or 30 minutes, then automatically goes into the cotton wash cycle. No need for a second trip to the washer!

GentlePower agitator

This dual-action agitator maximizes wash performance with a rotating spiral and flexible fins. The upper spiral continually circulates the wash load, pulling clothes from the top and lifting them from the bottom. The bottom fins move back and forth to provide gentle, effective cleaning action.

Delicate cycle

This extra-care setting uses gentle agitation to protect fine handwashables such as lingerie and sweaters.

Not all features available on all models. Complete features and specifications on page 58.

Super and extra-large capacity dryers

NBXR463EB (Electric), NBXR463GB (Gas)

NVLR333EE (Electric), NVL333GE (Gas)

Press Guard Wrinkle Care

This no-heat tumble cycle saves you the trouble of rushing to remove clothes by signaling every five minutes, for up to 20 minutes, after clothes are dry.

Variable end-of-cycle signal

Great when you're busy, this audible signal reminds you when clothes are dry. The signal volume can be adjusted according to your needs, whether your laundry room is next to the nursery or in the basement.

Automatic dry control

For each load, the dryer monitors the temperature with an automatic thermostat and ends the cycle when clothes are properly dried.

Dryer interior light

This brilliant light puts small items like socks and washcloths into clear view, making unloading faster and easier.

NWSR483EB/GB

Washer specifications:

Electrical rating: 115V, 60 Hz, 10 Amps

Circuit requirements: An individual properly grounded branch circuit, with a three-prong grounding-type receptacle protected by a 15- or 20-amp circuit breaker or time-delay fuse, is required.

Washer Note: Washer wall outlet must be located within 36" of service cord entry. Wall outlet must not be located behind dryer.

Dryer Note: Dryer wall outlet must be located within 36" of service cord entry and accessible when dryer is mounted in position.

See page 75 for warranty information.

Note: The third prong on the WSM2780W plug configuration is a flat spade type rather than a typical round probe. It requires a matching wall outlet.

Electrical requirements

WSM2700D: Electric dryer—This appliance should be connected to an individual, properly-grounded branch circuit with 120/240V or 120/208V single-phase 60 Hz electrical service and should be protected by 30-amp time-delay fuses or circuit breakers. This appliance is manufactured with neutral connected to the frame. Power cord should be purchased separately.

WSM2420D: Electric dryer—This appliance should be connected to an individual, properly-grounded branch circuit with 120/240V or 120/208V single-phase 60 Hz electrical service and should be protected by 30-amp time-delay fuses or circuit breakers. This appliance is manufactured with neutral connected to the frame. Power cord should be purchased separately.

NOTE: THESE APPLIANCES ARE NOT APPROVED FOR 120-VOLT OPERATION.

WSM2480D: Gas dryer—This appliance should be connected to an individual, properly-grounded branch circuit with a three-prong grounding-type receptacle and 120-volt single-phase 60 Hz electrical service and should be protected by 15 or 20-amp time-delay fuses or circuit breakers. This appliance is equipped with a 6-foot long flexible U.L. listed 20-amp power cord to match a 15-amp receptacle.

Gas rated input 10,500 BTU/HR. Factory equipped for natural gas. Tested for LP gas.

WSM2780D: Gas dryer—This appliance should be connected to an individual branch circuit with 120-volt single-phase 60 Hz electrical service and should be protected by 20-amp time-delay fuses or circuit breakers. This appliance is equipped with a 4-foot long flexible U.L. listed 20-amp power cord to match a 20-amp receptacle.

WSM2780D Gas Rated input 20,000 BTU/HR. Factory equipped for natural gas.

LP gas supply requires a conversion kit.

Kits:
WSM2780D-WE25X10017
WSM2480D-WE25X0219

Have a qualified gas technician install a conversion kit before use.

Exhaust information

See "Dryer Exhausting Information" on page 61.

For complete information see installation instructions packed with the product.

See page 75 for warranty information.

Models WSM2700D and WSM2780D Dimensions (in inches)

Models WSM2420D and WSM2480D Dimensions (in inches)

Dryer exhausting information

For complete information see installation instructions packed with dryer.

Important note:

GE Kit Number 14-A018 needed when converting rear exhaust to bottom or side. (On Extra-large (5.7) capacity models only.)

Ducting materials

For best performance, this dryer should be vented with 4" diameter all rigid metal exhaust duct. If "all rigid metal" duct cannot be used, then "flexible all metal" venting can be used, but it will reduce the maximum recommended duct length. The following kit or parts are available from your local service organization.

Kit WX8X75—7' aluminum duct and 4' hood, short tail.

(OR individual parts):

WX8X65 7' aluminum flex duct only

WX8X58 4' clamps (2)

WX8X67 4' exhaust hood

See installation instructions for complete information.

Exhaust length calculation:

1. Determine the number of 90° turns needed for your installation. If you exhaust to the side or bottom of dryer, add one turn.

2. The maximum length of 4' rigid (aluminum or galvanized) duct which can be tolerated is shown in the table. The maximum lengths for flexible ducts are less than for rigid duct. See table in installation instructions. A turn of 45° or less may be ignored. Two 45° turns within the duct length should be treated as a 90° elbow. A turn over 45° should be treated as a 90° elbow.

Exhausting the dryer to the outside is strongly recommended to prevent large amounts of moisture and lint from being blown into the room. Gas dryers or any dryer located in a closet must be exhausted to the outside.

Caution: For personal safety do not terminate exhaust into a chimney, under any enclosed house floor (crawl space), or into an attic, since the accumulated lint could create a fire hazard or moisture could cause damage. Never terminate the exhaust into a common duct or plenum with a kitchen exhaust, since the combination of lint and grease could create a fire hazard.

Exhaust ducts should be terminated in a dampered wall cap to prevent back drafts, bird nesting, etc. The wall cap must also be located at least 12" above the ground or any other obstruction with the opening pointed down. Other terminations, such as louvered wall boxes, are acceptable provided they are equivalent to a 4" opening dampered wall cap.

Special installation requirements

Alcove or closet installation:

- If your dryer is approved for installation in an alcove or closet, it will be stated on a label on the dryer back.
- The dryer **MUST** be exhausted to the outdoors. See EXHAUST INFORMATION above and installation instructions.
- Minimum clearances between dryer cabinet and adjacent walls or other surfaces are:
 - 0" either side
 - 3" front and rear
- Minimum vertical space from floor to overhead cabinets, ceilings, etc. is 52".
- Closet doors must be louvered or otherwise ventilated and must contain a minimum of 60 sq. in. of open area equally distributed. If this closet contains both a washer and a dryer, doors must contain a minimum of 120 sq. in. of open area equally distributed.
- The closet should be vented to the outdoors to prevent gas pocketing in case of a gas leak in the supply line.
- No other fuel-burning appliance shall be installed in the same closet with the dryer.

Bathroom or bedroom installation:

- The dryer **MUST** be exhausted to the outdoors. See installation instructions.
- The installation must conform with the local codes, or in the absence of local codes, with the National Fuel Gas Code, ANSI Z223.

Minimum clearances other than alcove or closet installations

- Minimum clearances to combustible surfaces:
 - 0" both sides
 - 3" rear

For more information on venting kits and accessories, please call 1-800-GE-CARES.

- 5,200 BTU, 10.7 EER, 115 Volts

GE Electronic Room Air Conditioners

- 3 cool/3 fan speeds
- Electronic thermostat with remote
- Slide-out chassis
- 12-hour timer
- Auto Circulaire
- Energy saver feature
- EZ Mount window kit
- Power interruption restart

AGQ24DH

- 23,800/23,300 BTU, 8.5/8.5 EER, 230/208 Volts

AGQ18DH

- 18,000/17,500 BTU, 9.7/9.7 EER, 230/208 Volts

AGQ14AH

- 13,800 BTU, 10.0 EER, 115 Volts

AGQ12AH

- 12,000 BTU, 9.8 EER, 115 Volts
(This model does not include Auto Circulaire or Energy saver feature)

AGQ12DH

- 12,000/11,500 BTU, 9.8/9.8 EER, 230/208 Volts
(This model does not include Auto Circulaire or Energy saver feature)

AGQ10AH

- 10,000 BTU, 9.8 EER, 115 Volts
(This model does not include Auto Circulaire or Energy saver feature)

AGQ08AH

- 8,000 BTU, 9.8 EER, 115 Volts
(This model does not include Auto Circulaire or Energy saver feature)

- 3 cool/3 fan speeds
- Electronic thermostat with remote
- Fixed chassis
- 12-hour timer
- EZ Mount window kit
- Power interruption restart

AGQ06LH

- 6,000 BTU, 9.7 EER, 115 Volts

- 3 cool/3 fan speeds
- Electronic thermostat with remote
- Fixed chassis
- 12-hour timer
- EZ Mount window kit
- Power interruption restart

AGQ05LH

- 5,150 BTU, 9.7 EER, 115 Volts

GE® Air Conditioning

GE ENERGY STAR®-Qualified Mechanical Room Air Conditioners

- 3 cool/2 fan speeds
- 8-position thermostat
- Slide-out chassis
- Auto Circulaire™
- Energy Saver feature
- EZ Mount window kit

AGV24DH

- 23,800/23,300 BTU, 8.5/8.5 EER, 230/208 Volts

AGV14AH

- 13,800 BTU, 10.0 EER, 115 Volts

AGV18DH

- 18,000/17,500 BTU, 9.7/9.7 EER, 230/208 Volts

- 3 cool/2 fan speeds
- 8-position thermostat
- Slide-out chassis
- EZ Mount window kit

AGV12AH

- 12,000 BTU, 9.8 EER, 115 Volts

AGV08AH

- 8,000 BTU, 9.8 EER, 115 Volts

AGV10AH

- 10,000 BTU, 9.8 EER, 115 Volts

GE Mechanical Room Air Conditioners

- 3 cool/2 fan speeds
- 8-position thermostat
- Fixed chassis
- EZ Mount window kit

AGV06LH

- 6,000 BTU, 9.7 EER, 115 Volts

- 2 cool/2 fan speeds
- Adjustable thermostat
- Fixed chassis
- EZ Mount window kit

AGV05LH

- 5,150 BTU, 9.7 EER, 115 Volts

- ENERGY STAR®-qualified
- 3 cool/2 fan speeds
- 8-position thermostat
- Fixed chassis
- EZ Mount window kit

AGF05LH

- 5,200 BTU, 10.7 EER, 115 Volts

GE® Air Conditioning

GE Slide-Aire

- 10-position thermostat
- Vertical slider kit panel
- Multiple cooling and fan speeds
- Four-way adjustable air discharge

AGX10AH

- 10,000 BTU, 9.5 EER, 115 Volts

AGX08FH

- 8,000 BTU, 9.5 EER, 115 Volts

GE Heat/Cool Series

- Multiple cooling/heating speeds
- Vent/Exhaust
- Adjustable thermostat
- Auto Circulaire™
- Four-way adjustable air discharge
- Easy access filter

AGE21DH

- 21,000/20,500 BTU, 8.5/8.5 EER, 11,600/9,400 BTUH Heat, 230/208 Volts

AGE18DH

- 18,000/17,500 BTU, 9.7/9.7 EER, 11,600/9,400 BTUH Heat, 230/208 Volts

AGE14DH

- 14,000/13,500 BTU, 9.7/9.7 EER, 11,600/9,400 BTUH Heat, 230/208 Volts

AGE12DH

- 12,000/11,500 BTU, 9.8/9.8 EER, 11,200/9,200 BTUH Heat, 230/208 Volts
(This model does not include Auto Circulaire)

AGE07AH

- 6,900 BTU, 9.7 EER, 3,850 BTUH Heat, 115 Volts
(This model does not include Auto Circulaire)

GE Dehumidifiers

- ENERGY STAR®-qualified
- Automatic humidistat control
- Electronic controls
- Automatic shut-off system with bucket full indicator
- Easy roll casters
- External drain connector
- Automatic defrost control

AHG50LH

- 50 pints per day

AHG40LH

- 40 pints per day

AHG30LH

- 30 pints per day
(Not an ENERGY STAR model)

Control panel

GE Portable

- Contemporary design
- Electronic controls
- Digital temperature readout
- 3 cool/3 fan speeds
- 24-hour timer
- Auto Circulaire
- Easy roll casters
- Adjustable exhaust hose
- Self evaporating condensate removal

APH10AA

- 10,000 BTU, 120 Volts

Control panel

GE Low Profile Air Conditioner

- Contemporary design
- Electronic controls
- Digital temperature readout
- 3 cool/3 fan speeds
- 12-hour timer

AGP07LH

- 6,650 BTU, 9.8 EER, 115 Volts

Control panel

GE® Built-In Air Conditioning

GE Standard-Mount Electronic Cool Only

- ENERGY STAR®-qualified
- Electronic control with remote
- Electronic digital thermostat
- Four-way air direction
- Up-front, washable air filter
- 3 cool/3 fan speeds
- Power interruption restart

*See written warranty for details.

Wall case dimensions

D = Distance from front of case to side louvers (excluding grille).

Note: When installing slide out chassis units in through-the-wall applications, keep louvers free. Do not restrict air flow areas. Fixed chassis units are not suitable for through-the-wall applications.

Wall outlets

Wall Outlets

All wiring, including installation of receptacle, must be made in accordance with local electrical codes and regulations. Electrical outlet should be in reach of line cord.

Note: Aluminum building wiring may pose special problems— consult a qualified electrician.

All cooling with electric heat models and heat pumps are corrosion treated. Specifications and design subject to change without notice. *These units are not intended to be the primary source of heat.

Air conditioner tips

Air flow – Keep air filters clean. Do not block air flow areas.

Roomside view – J-models feature concealed power cord storage, this eliminates excessive cord exposure when receptacle is located close to unit.

Accessories

Other accessories are available, they include: Fedders and Whirlpool sleeve adapters. Drain kits and Chassis adapters for old Hotpoint cases.

See page 75 for warranty information.

Room Air Conditioners Specifications

Built-In Room Air Conditioners Wall Opening for RAB46/47/48 Cases

A finished opening of 26-1/8" x 15-3/4", clear of intrusions, is required. Keep clearance of 4" from side walls. Brick veneer or frame walls should have wood studding surrounding case to provide firm anchoring with screws. Case can be fastened directly to brick or block walls with screws sunk in lead expansion shields.

Note: Units should be caulked on all four sides of case to the building exterior to assure building integrity.

Two wall cases for tenant option installation

When the air conditioner is offered as a tenant option, these wall cases provide protection against outside elements.

RAB47—includes wall case, exterior grille and steel closure panels.

RAB48—includes wall case, exterior grille, steel closure panel and two layers of insulation.

Standard wall case RAB46

Solid-sided wall case fabricated of galvanized steel with baked enamel finish. Welded areas are coated with a sealing compound to help resist rust and corrosion. Polymer gasket surrounds opening to assure tight weather seal. Aluminum grille (RAG13) is included. Panels on interior and between case and grille provide weather protection prior to installation of chassis.

Wall outlets

All wiring, including installation of receptacle, must be made in accordance with local electrical codes and regulations. Electrical outlet should be in reach of line cord.

Note: Aluminum wiring may pose special problems—consult a qualified electrician.

Note: Some models may not be available in your area due to local legislation. Contact your local dealer.

Note: When installing slide out chassis units in through-the-wall applications, keep louvers free. Do not restrict air flow areas. Fixed chassis units are not suitable for through-the-wall applications.

Total capacity and E.E.R. ratings are calculated based on the Association of Home Appliance Manufacturers' standards.

Warranties at a glance

The condensed list below is a convenient overview of the written warranties offered on various Hotpoint and GE® appliances described in this catalog. For complete warranty details on a specific appliance model, contact your nearest Hotpoint/GE appliance dealer, or call GE Factory Service, toll-free, 800-GE-CARES (800-432-2737).
