24 INCH COUNTER DEPTH BOTTOM-FREEZER REFRIGERATOR

BRFB1322SS

Contemporary European Design

Blomberg refrigerators harmonize refined design sensibilities with the demand for functional excellence. Thoughtful decisions include a streamlined counter-depth design for the clean sight lines you covet, reversible doors for ultimate flexibility, plus a luxurious stainless steel finish that resists fingerprints and makes cleaning effortless. Boldly beautiful Euro-style handles combine sophistication and strength to complement both your aesthetics and your active life. Inside, theatrical LED lighting brilliantly illuminates every corner while conserving energy. Prominent digital display puts complete control within easy reach.

In Harmony with Nature

Blomberg understands living well also means living intelligently and responsibly. It's a distinction that earned us the ENERGY STAR® 2017 Partner of the Year award. Featuring innovative technology that safeguards your food and ensures maximum freshness, our ENERGY STAR certified refrigerators also conserve energy, save money, and help protect the planet. The ultimate in eco-friendly engineering, Blomberg refrigerators are built with 99.9% lead-free materials, 100% free from ozone-depleting greenhouse gases, and manufactured with 85% recyclable components.

In Harmony with Your Life

Duo-Cycle Cooling

Ingenious Blomberg refrigerators are equipped with advanced multi-cycle, no-frost, silent cooling technology. Independently zoned and controlled cooling systems maintain even air temperature and humidity in separate freezer and fresh-food compartments, delivering enhanced food preservation and maximum energy efficiency. No air transfer between compartments means food in the freezer section freezes faster, items in the refrigerator stay fresher longer, and odors don't circulate.

Digital Display

Blomberg refrigerators feature bright, accessible digital displays that simplify programming and put you in control of performance.

Automatic Ice Machine

Whether you are getting ready for a big party or just keeping up with your busy family life, there is never a need to rush out and buy ice. The Blomberg automatic icemaker can produce up to 6 pounds of ice per day.

Flexi-rack

Featured in certain Blomberg refrigerators, this versatile chrome bottle holder suspends from a shelf to provide convenient extra storage. Ideal for chilling wine or keeping tall bottles of cold water on hand, this practical accessory makes the most of every inch of space.
