

IR30451/S/P

FEATURES

Wolf induction technology offers consistent, precise temperature control and nearly instantaneous temperature adjustment response

Every induction zone features Boost Mode for quick boils. The new 5500-watt zone supercharges Boost Mode to heat liquid in even the largest pots with incredible speed

Sturdy knobs mimic the experience of cooking with gas, offering precision across the temperature range. Flick past the highest setting to quickly engage Boost Mode

Slick ceramic glass surface resists scratching, staining, and impact; because the cooktop stays relatively cool, spills wipe off easily

The Bridge function joins two induction zones into one large area, enabling use of an induction-capable griddle, open roaster, or fish poacher

Wolf's Dual VertiFlow™ convection system provides reliably even heat, reduces hot and cold spots, and enables consistent multi-rack cooking

Take the guesswork out of cooking with 10 chef-created cooking modes, including Bake, Broil, Convection, Convection Roast, Dehydrate, Gourmet, Proof, Roast, Stone, and Warm

Gourmet Mode features nearly 50 presets that automatically control the oven to ensure delicious results

Control your range from wherever you are using our convenient Owners' App—remotely preheat, adjust temperatures, select modes, and more

Stainless-steel construction, heavy-duty handles, and Wolf's iconic knobs make a striking statement and coordinate elegantly with similarly styled Sub-Zero, Wolf, and Cove appliances
