

# CRH2BT30115

2" x 11.38" x 20.5" (H x W x D)

ENERGY STAR certified 115V Safety First 2-burner cooktop with a jet black glass surface, digital touch controls, and 30-minute auto shutoff feature, 2400W

### Highlights:

ENERGY STAR certified for guaranteed savings and a greener performance

Specially designed with multiple protective features to ensure maximum safety in hotels, efficiency apartments, independent living, and similar kitchen spaces

30 minute auto shutoff prevents unsupervised heating

### Product Features:

|                             |                                                                                                                                          |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| 2-Burner Radiant Cooktop    | Smooth-top glass cooktop ideal for hotels, apartments, and other small kitchen spaces                                                    |
| Safety First Cooktop series | Specially designed to ensure maximum guest safety with several protective features included                                              |
| 30-minute automatic shutoff | Burners will automatically turn off after 30 minutes of inactivity, helping to prevent unsupervised heating                              |
| ENERGY STAR certified       | Rated by the DOE to perform with more efficiency than federal standards require, saving your unit energy and you on higher utility costs |
| Safety cut-off function     | If the cooktop on/off switch is touched but no power level is selected within one minute, the cooktop automatically turns off            |
| Overflow protection         | Power will automatically shut off if boiling liquid or a wet cloth touches the control panel, resuming after the controls are dried      |
| Child lock                  | Safety feature lets you lock the cooktop to prevent unsupervised changes                                                                 |
| ADA compliant design        | Upfront controls meet ADA guidelines for easier accessibility, ensuring users don't have to reach over a hot surface                     |
| Jet black glass surface     | Elegant style on a smooth, jet black glass surface for a contemporary look that is easier to clean                                       |
