HBOX168

2" x 8" x 5" (H x W x D)

Energy and sound saving hotel box for use with any refrigerator

Highlights:

Allows guests to silence the refrigerator overnight at the touch of a button

Huge savings on energy consumption starting at 33%

Easy to install with no professional wiring required

Product Features:

Universal application	Works with virtually any 115/120V refrigerator; not recommended for use with cycle or manual defrost unit, or on a unit with a timer-based defrost system
Energy saving design	16/8 and Off mode offer large savings in energy consumption
Noise reducing technology	16/8 and Off mode disable the refrigerator, ensuring hotel guests can enjoy a quiet night's sleep without hearing the compressor activity
Normal default mode	Standard mode allows normal 24 hour operation of the refrigerator for guests storing perishable items overnight
Instructional magnet included	We include a magnet with easy instructions for the HBOX168 designed to go on the refrigerator door so your guests can manage the unit without a separate use & care guide
No professional installation needed	Simply plug the HBOX168 into a grounded wall socket and plug your refrigerator into the HBOX
LED display	Control panel displays the time and selected mode
Easy to use	Instructions are included on the control panel and require a simple touch of a button to change refrigerator settings
Compact size	Designed to fit easily on top of refrigerators
