

ELORATM

DIRECT VENT HYBRID STOVE

GDS30LN

LIFELIKE LOGS. HYBRID HEAT. UNMATCHED FIRESIDE FEEL.

The Elora™ Gas Stove reimagines the traditional stove with a distinctly modern design that blends contemporary styling with advanced heating performance. Realistic flames rise through detailed Luminous Oak or Birch log sets and can be enjoyed from three sides, creating a warm and inviting atmosphere. Integrated accent and ember bed lighting add depth and ambiance even when the flames are off. A hybrid blower combines gas and electric heat to extend comfort into milder seasons, delivering efficient warmth when you need it most.

FEATURES

- Hybrid Heat: Gas, Electric, or both
- Luminous Logs technology where flames emanate directly from the logs
- Customize heat and ambiance with three flame and light settings: high flame, low flame, and ember bed lighting
- Modulating electric LED ember bed
- Up to 30,000 BTUs (25,000 gas heat + 5,000 electric heat)
- Warranty: President's Limited Lifetime

CONTROLS

INCLUDED REMOTE

Enjoy added convenience with the included remote - control the power, heat output and thermostat from the comfort of your couch.

INNOVATIONS

HYBRID STOVE

The gas/electric hybrid stove extends comfort beyond the heating season, allowing you to enjoy the glowing ember bed and gentle electric warmth even in milder months.

LUMINOUS LOGS

With advanced burner technology and careful engineering, the flames dance and flicker just like a traditional wood-burning fire, right from the log.

MORE EFFICIENT USE OF GAS

This innovative design offers greater impact and efficiencies (increased flames without added fuel consumption). Napoleon® recognizes the global shift towards environmentally friendly solutions and is dedicated to offering sustainable products and practices.

DIRECT VENT

Effectively removes exhaust and fumes from your space, keeping your indoor air clean while also conserving energy.
