- 8 cu ft total capacity

DIMENSIONS

Height	69 3/4 "
Width	21 7/8 "
Depth	21 1/4 "

FEATURES & BENEFITS

No More Gaps

Our integrated products are designed to fit flush into your cabinetry. Customize your appliance with your own cabinetry and handle or purchase a stainless steel door panel and handle kit accessories.

Variable Temperature Drawer

Designed to allow optimal storage of fresh meat, produce, deli and dairy products at their ideal temperatures. Operating separately from the refrigeratorand freezer, the drawer operates from 23°F and 37°F, with 37°F ideal for fruit and vegetables, 30°F perfect for fresh meats, and 23°F for fast chilling - keeping your food fresher for longer.

Simple Storage

This refrigeratoris designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Adjustable shelving in the main cavity and door provide flexible storage options.

Fast Freezing

When freezing fresh food, the freshness, texture and taste are retained with rapid freezing. The Fast Freeze function boosts the freezing speed by dropping the freezer to its coldest temperature (11°F) for 12 hours ensuring food is fast and fully frozen. Plus, you never need to worry about defrosting your refrigeratorwith the built-in frost-free function.

Beautiful Lighting

Bright LEDs light up the ceiling, shelves, bins and tray in both refrigeratorand freezer, making it easy to find your food and creating a welcoming glow in your kitchen for those midnight snacks.

Easy Installation

Our integrated products are easy to install, whether you are renovating your kitchen or designing a new one. They are designed for minimal gaps with adjustable door panels that can be customized to match your kitchen.

Easy Cleaning

Spill-safe secure glass shelves easily capture any drips or leaks and prevent them from falling on items below.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
